

H₂O EXPRESS TEST KIT

FAST, EASY, COST-EFFECTIVE SYSTEM RECOMMENDATIONS

The H₂O Express Test Kit is designed to help you choose the best Pentair® Everpure® solution for your equipment based on the condition of your water!

H₂O Express Test Kit: 180-80193

Testing is easy! Simply complete the instruction form included in the kit. Collect a water sample according to the instructions and send to the address on the form. The sample will be tested and a system recommendation will be sent to the email address(es) provided on the form. Everpure H₂O Express Test Kits are available through an authorized Pentair Dealer.

TEST KIT FEATURES:

- ◆ Evaluation of water quality to determine your treatment needs
- ◆ Mail-in lab test for economical analysis and recommendation

TEST KIT CONTAINS:

- ◆ Test Kit Information Form
- ◆ Three (3) 150 mL Water Sample Vials
 - Please be sure to fill each of the vials full of water, otherwise certain physical characteristics may not be evaluated.
